THE CHALLENGE

Managing a small shop is harder than it looks

Most owners rely on notebooks, Excel, or memory — all of which fail them.

Lost track of stock

Over-ordering or running out unexpectedly hurts sales and wastes cash.

Unpaid invoices pile up

No system to track who owes money — cash flow becomes a guessing game.

Excel is error-prone

Formulas break, files get lost, and no one else knows how the file works.

Cloud tools need internet

Power cuts and connectivity issues make cloud-only software unreliable.

What is Stokka?

A desktop application designed for small shop owners — no internet needed, no training required.

Desktop App

Runs on Windows
No browser needed

100% Offline

Works without
internet, always

Bilingual

Full English
& Arabic (RTL)

Licensed

Per-machine activation
with 7-day free trial

FEATURES

Everything a shop owner needs

Eight modules — fully configurable, all in one app.

Products

Track stock, cost & selling prices, barcode labels, CSV import.

Suppliers

Manage supplier contacts, VAT/tax numbers, linked to purchase orders.

Customers

Customer profiles, credit balance, full invoice history.

Purchase Orders

Create POs, receive stock, distribute transport & customs costs.

Sales Invoices

Configurable series, VAT toggle, discounts, PDF output.

Quotations

Create quotes, send to customers, convert approved quotes to invoices.

Bundles

Group products into sellable sets — stock auto-decrements per component.

Reports

9 built-in reports: sales, P&L, inventory, customer & supplier statements.

INVENTORY

Never run out of stock again

Real-time inventory tracking with automatic alerts.

- Barcode field + label printing (3 sizes)
- Cost price vs. selling price — see your margin instantly
- Low-stock badge and dashboard counter
- Full stock history via linked purchase orders
- Auto-generated SKU + profit margin per product
- Import products, customers & suppliers from CSV

Product	Stock	Status
Mineral Water 1.5L	80	OK
Olive Oil 750ml	45	OK

SALES

Issue invoices, track payments

Know exactly what's been paid and what's outstanding.

$845
Total invoiced
This month

$190
Outstanding
1 unpaid invoice

5
Invoices issued
April 2026

4
Fully paid
On time

Configurable series
Multiple series with custom prefixes, starting numbers, and counters.

VAT + Discounts
Per-invoice VAT toggle, line & invoice discounts, customer credit balance.

PDF + Notes
A4 PDF with logo, full customer details, VAT, discounts, and custom note.

Quotations
Create quotes, get approval, convert to invoice in one click.

PURCHASING

Purchase orders made simple

Order from suppliers and restock in a few clicks.

1

Create PO

Select supplier
& add products

2

Saved as Draft

Edit anytime
before receiving

3

Mark as Received

Confirm delivery
in the app

4

Stock Updated

Transport, customs
& extra costs logged

PO #	Supplier	Date	Items	Total	Status
PO-003	Gulf Products LLC	20 Mar 2026	2	$210.00	RECEIVED
PO-004	EuroGoods Import	05 Apr 2026	3	$280.00	PENDING

REPORTS

Insights at your fingertips

Nine built-in reports — all printable, all filterable by date range.

Sales Report

Revenue, invoice count, and per-customer breakdown for any date range.

Pending Payments

All unpaid and partial invoices with customer name and outstanding balance.

Customer History

Every invoice for a specific customer in chronological order.

Inventory Report

Full product list with current quantities and stock values.

Low Stock Alert

Products at or below minimum threshold — act before you run out.

Profit & Loss

Revenue, COGS, gross profit, extra PO costs, and net profit.

Customer Statement

Full transaction history: invoices, payments, credits, and running balance.

Supplier Statement

All purchase orders for a supplier with full cost breakdown.

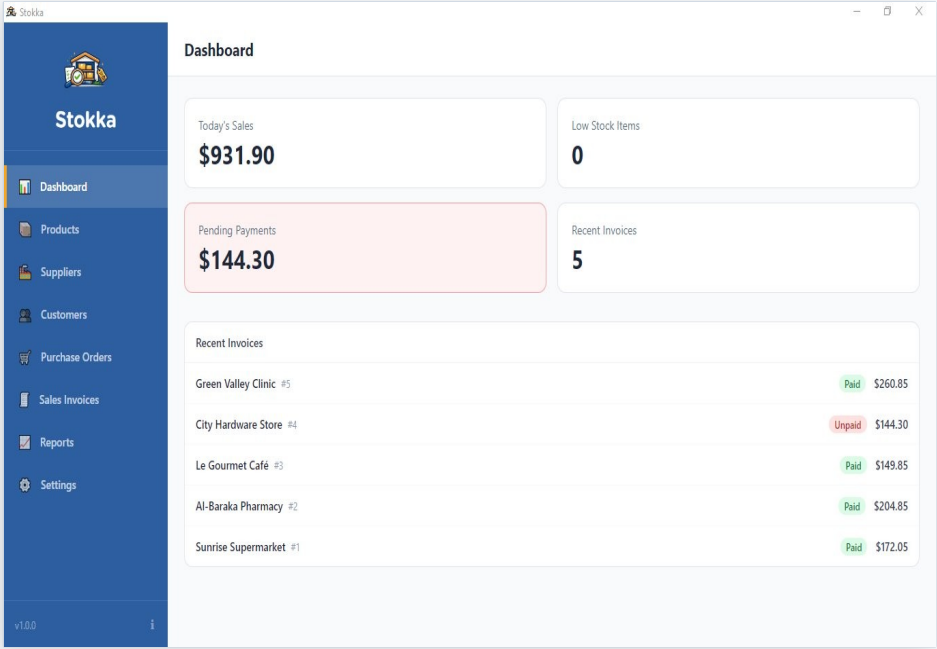
Account Statement

Combined income and expense view across all transactions in a date range.

DASHBOARD

Your business at a glance

The dashboard loads in under 1 second — always up to date.



Settings (6 tabs)

- Company Info — name, address, logo, VAT number
- Preferences — language, currency, VAT rate
- Invoice Series — prefixes, counters, starting numbers
- Modules — toggle any module on or off
- License & Updates — activation and auto-updates

Built for reliability.

Technology choices that make Stokka fast, secure, and maintenance-free.

Electron + React

Native desktop feel with modern web UI technology.

SQLite Database

All data stored locally on the machine — no cloud, no breach risk.

License System

Per-machine activation key. 7-day free trial included.

i18n / RTL Ready

Full Arabic support — layout mirrors automatically.
